

Dear Mike Psaris,

Thank you very much for submitting an abstract for the special issue of the *International Journal of Geospatial and Environmental Research* (IJGER). We have had highly positive responses to this call. The selection process was very competitive, as you can imagine. For your information, the criteria were: (1) evidence and promise of well-argued research, (2) adherence to the theme of space-time, and (3) contribution to geospatial research through innovative case studies, theory, or methodology.

We are pleased to invite you to submit a full paper. The manuscript should be submitted by January 31, 2014. The word count for the manuscript may not exceed 7,000 words. Please see the attached guidelines for authors. Once we receive your completed manuscript, we will start the review process. We then will let you know an appropriate volume/issue for IJGER.

We are again pleased that we are able to include your research in this issue. Should you have any questions please do not hesitate to contact us. We are delighted about this Issue on the *International Journal of Geospatial and Environmental Research* (IJGER).

Best wishes,

Changjoo Kim, Ph.D.

Editor-in-Chief

*International Journal of Geospatial and Environmental Research* (IJGER)
